

Arianna's Nutrition Expedition™ Testimonial Quotes from Learner Verification

"My students enjoyed Arianna's Nutrition Expedition and they gained a tremendous amount of knowledge about nutrition." (4th-grade teacher, Michigan)

"The creativeness and the importance of eating healthy were taught to a group of students who have not had a lot of background in the food pyramid and its important role in their lives." (4th-grade teacher, Missouri)

"I specifically liked the values of good nutrition that the program taught the kids, and the activities and ways they were taught." (4th-grade teacher, Mississippi)

"I was surprised at how much fun my class seemed to have with the lessons." (4th-grade teacher, Michigan)

"My students were excited because they knew that they were about to spend time with their friends Arianna and Marcus." (4th Grade Teacher, Maryland)

"This program exceeded my expectations. I was impressed with how well things went. The variety of strategies kept things moving a nice pace." (4th-grade teacher, Michigan)

"I have already recommended this program to another teacher in our fourth grade!" (4th-grade teacher, North Carolina)

"I have already seen some changes in my students' attitudes toward nutrition. I hear them talking about Combination Foods and checking the nutritional content of the foods listed on our school lunch menus." (4th-grade teacher, Michigan)

"With all the class has learned, I think they are more conscious of the food groups. It will help if we talk about school lunches occasionally to review this information." (4th-grade teacher, Missouri)

"I thought the materials were very well done. My students were very involved in all of the lessons and appear to have learned quite a bit. I'm anxious to give them the post-test." (4th-grade teacher, Michigan)

"Materials were fantastic and were very age-appropriate. Give the team that developed it an A+." (4th-grade teacher, Missouri)

"The students enjoyed seeing what Arianna was up to. They really get into the story." (4th Grade Teacher, Alabama)

"I was impressed with the creative ways that Language Arts was included in this program." (4th-grade teacher, Missouri)

"I loved the teaching strategies and found them to be very helpful. The kids loved the activities." (4th Grade Teacher, Michigan)

Arianna's Nutrition Expedition – Interactive CD-ROM

“The games on CD-ROM allowed students to reinforce newly learned nutrition content from the program and the children loved them. They improved the whole program.” (4th-grade teacher, Mississippi)

“The CD-ROM was very effective in meeting the goal and the kids still ask to play. It was a great way to reinforce the information in the story. Each time a child is exposed to a piece of information, it increases the likelihood that the information will make it to the long-term memory.” (4th-grade teacher, Missouri)

“The CD-ROM is great and student-friendly. It serves to reinforce students’ learning about the nutrition concepts. My students enjoy any opportunities to reinforce their learning through the use of the computer.” (4th-grade teacher, Maryland)
